

ECO/SX HVLP

Gravity gun kit

Kit includes gun with 600cc metal gravity cup and 3 different needle nozzle aircap sets (1.0, 1.4, 1.7mm)

Traditional A.O.M low air consumption 5 cfm at 30 psi

Lightweight ergonomic design makes it comfortable in the hand and well balanced

Unique aircap and tip design creates a superior adomized spray pattern

(pat. pend.)

30 psi air pressure at the inlet of the gun gives 10 psi to the aircap for HVLP performance

Complete with wrench and cleaning brushes in a durable travel case

Kit designed for both the professional automotive painter and high-end wood craftsman. Kit contains tip sets and aircaps for a wide variety of professional coatings including a special aircap for fine detail work.

HAMMERED EFFECT	1.8
ORANGE PEEL EFFECT	1.8

The ECO/SX continues in the A.O.M. tradition of extremely low air consumption. This gun is truly a low volume / low pressure spray gun, with air usage of only 5cfm at 30psi, it can operate with a 1 1/2hp air compressor. Because of its unique aircap/tip design the ECO/SX has a superior atomized spray pattern even at this low air consumption. The combination of air usage and quality spray in a travel case makes the SX a perfect spray gun for field work with a small portable compressor, while having the production capacity fo in shop work.
