

AOM SPRAY EQUIPMENT

K1 Spray Guns

Easy to use and maintain-high transfer efficiency with very low over-spray

The K1 unites the best features of both HVLP and conventional guns

Low overspray gives high production capacity

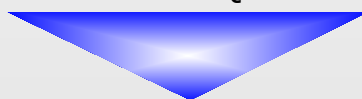

LARGE NOZZLE SELECTION FOR PERFECT APPLICATION OF VIRTUALLY ALL AUTO REFINISHING COATINGS, WOOD AND INDUSTRIAL PAINTS, INCLUDING WATER BOURNE COATINGS.

User friendly self adjusting needle packing and stainless steel springs

excellent resistance to wear

Top quality stainless steel greatly extends life of fluid nozzle and needle.

OVER 80 YEARS OF FINE ITALIAN INDUSTRIAL EXPERIENCE GOES INTO THESE EXCEPTIONAL HIGH TRANSFER EFFICIENCY GUNS AVAILABLE ONLY FROM A.O.M. SPRAY EQUIPMENT

K1/S

#237XX

High performance gravity spray gun provides the production speed and product layout of a conventional gun with low overspray and high transfer efficiency of 65%+, and the finest atomization for virtually any application thanks to a large choice of nozzle sizes. Nylon graduated 21 oz. ultra resistant cup with drip proof 1/4 turn quick closure and spare lid seal or 35 oz. aluminum cup as shown.

The packaging contains reusable paint filter, universal safety gravity spray gun's holder, new hardened wrench and cleaning brush. Although not a low pressure spray gun, the K1/S works better at reduced air pressure (30 to 35 psi) considerably reducing overspray and material waste. Provides an ultra fine atomization for superior finishes with virtually all coating materials including the difficult auto clear coats. No problem of exact color match. Very smooth paint lay-down, and high production speed.

K1

#233XX

The K1 has the same attributes as the K1/S. Siphon gun for conventional applications in all sectors. 30 oz. suction cup in easy to clean anodized alluminum with reinforced base. User friendly cam-lock quick closure with anti drip system fitted in the lid. Reusable paint filter, new wrench in hardened steel and cleaning brush included

K1/SSP

#235XX

Universal industrial spray gun with the same characteristics as the above guns, for fast application of large material quantities with 1:1 double diaphragm low pressure pumps or pressure tanks. Provides the finest atomization of stains, primers, paints and lacquers for woodfinishing, production body shops and industrial painting in general.

Large fan size and surface coverage give fast working speed and increasing coating productivity. Stainless steel fluid inlet fitting, universal hardened steel wrench and cleaning brush included.
